Full Work Description

***** PLEASE REVIEW THE WORK ORDER IN FULL AS REQUIREMENTS AND PROTOCOL CAN CHANGE *****

EXPECTATIONS & OBJECTIVE:

- Approximately 1-2 hours on-site in a residentialsetting, with a customer experiencing hearing loss.
- ***Phase 1 – Registration and Phone Install***: Expect this to take about 20 minutes. Be prepared to troubleshoot as needed to ensure successful phone connectivity and pairing.
- ***Phase 2 – Training***: The remainder of your visit should focus on teaching. This includes guiding the customer through phone use, adding contacts and making a practice call, connecting them to our team via their Welcome Call, and addressing any questions to ensure they're confident with their new phone before leaving the site.
- Patience, empathy, and kindness is paramount!

SCHEDULING & ARRIVAL:

- ClearCaptions operates on a Hard Start schedule to ensure the best possible service experience for our customers and afford Trainer-techs (you) the ability to take on and promptly move onto other jobs post installation completion.
- Trainer-techs are expected to contact customers ≥24hrs in advance of the scheduled install appointment as a courtesy confirmation call.
- ***We do not permit Rescheduling or Cancellations, but if/when it's required***: Trainer-techs must contact ClearCaptions' to request at least 48 hrs. in advance of the work order date and time via Support at **866-868-8695** even if/when a customer suggests and/or agrees to a new time.
- Check-in/Check-out must be completed while onsite. If installation cannot start or be completed for any reason, you must garner ClearCaptions' approval prior to exiting site.
- ***If you arrive "late"***: Your arrival time will not be adjusted, and when past Field Nation's 15-minute grace period will impact your timeliness rating. We will not take calls requesting arrival time overrides, so please plan accordingly.
- Detailed information regarding contacting customers and Clear Captions' scheduling protocol can be found within Documents under "*Customer Contact and Installation Scheduling Policy*".**Last updated 4/1/25*

REQUISITES:

- ***Customer must be present for entirety of Install (the registered user listed as the Location Contact in the Work Order).*** If customer is not home and not reachable, or to confirm if an approved Power-of-Attorney is on site call Support at **866-868-8695**
- The phone kit will already be on site. ***The kit does NOT include required tools listed.***As of December 2024, an RJ11 Splitter will be included with the Phone Kit accessories.
- ***No agent other than the assigned provider is permitted to be onsite or complete installation even if agent is part of a service company.***
- Trainer-techs are prohibited from mounting the caption phone and/or creating any structural changes to a work site. This is including but not limited to drilling holes and running cable.
- ***Recording and/or retaining customer login credentials or personal information is strictly prohibited.***
- ***As of 4/21/25, ClearCaptions will be piloting a new process on a random subset of our required Welcome Call. This is to allow us testing around what helps drive the best combined service to customers and ensure they are set up for success during your visit.***

DRESS CODE: Our requirement is that providers show up clean and presentable wearing business casual attire. Slacks or jeans (no holes/patches), closed-toed shoes, and a polo shirt, NO hats during installation.

PRE-INSTALL CALLOUTS:

- ***Review the required tutorials, linked in your Tasks.*** These are designed to help make you and this installation successful!
- Download and reference "Installation Checklist" in Client Documents for step-by-step instruction. **Last updated 2/27/25*
- A full flip through "*Phone Guide*" for training the customer can be accessed here: **https://rb.gy/ifegij**.
- End customer's **Username** and **Password** are located under Buyer Custom Fields in the Work Order. If this information is not viewable ensure you are correctly checked in onsite and call Support at **866-868-8695**.

CUSTOMER IDENTITY VALIDATION & CONSENT:

Please note. This install will be required to follow a new Document Management System (DMS) protocol outside of the in-phone set-up to consent and validate customers' identity, as set forth by the FCC.

- Identity validation is necessary to protect the fund that pays for the captioning service so it can be made available to qualified and registered users at no cost. The FCC requires ClearCaptions to verify the account information customers provide when signed up for our service and share that information with the FCC's Telecommunications Relay Service User Registration Database (TRS-URD). Doing so will allow us to continue to provide our service to end users.
- Required steps for following the DMS protocol are included in the "Installation Checklist" attached to this work order, and Training Video, FAQs and Document Matrix for remediation documentation uploads are accessible through Client Documents.
- ***This process must be complete in full before opening the phone.*** Failure to follow protocol will result in forfeiture in pay. Validation success will be verified on the required Welcome Call.
- ***This may require uploading photos of customer documentation and must be legible to pass.***Meaning no blur and/or content outside the borders of the qualifying document alone.
- ***Only the camera feature that is built into the DMS platform may be used to capture customer information for upload***. DO NOT take a picture and retain customer identity documents on your phone/tablet/device, and DO NOT load any customer personal information into this Field Nation work order (e.g. in deliverables). If you run into upload issues in the DMS platform, contact Support at **866-868-8695**.
- If a customer requests a copy of the electronic records they signed, please advise that the records aren't readily available for download in DMS and will need to be produced and shared with the customer by ClearCaptions' corporate office. Contact Support at **866-868-8695**.

PAYMENTS:

- ***To be paid in full, Trainer-techs must***: Complete all required job elements in entirety, including but not limited to: processing customer consent and identity verification through the designated portal, "Welcome Call" execution and posting, installed phone that is paired and fully operating while on site, and no reported problems.
- All travel must be submitted in a counteroffer and be pre-approved prior to assignment. We do not honor travel pay submitted after Work Order acceptance and/or completion. Tools/cables used must have an uploaded receipt for pay out.
- ***At no point are Trainer-techs permitted to request payment from customers.***
- ***Use of "Discounts" feature to adjust pay is prohibited.*** Please document any issues under "Report a Problem" from the Work Order for proper review and adjustments.
- Detailed information regarding ClearCaptions' payment structure can be found within Client Documents under "*Work Order Payment Policy*".**Last updated 4/1/25*

TROUBLESHOOTING:

- Call Support at **866-868-8695** for issues preventing the installation and/or for VoIP conversion if applicable.
- VoIP Conversion guidance is available in the *Attached Files* link under Additional Information > Client Documents.
- ***Use of your own "hotspot" to connect a customer's captioning phone is strictly prohibited.***
