Full Work Description

READ THE ENTIRE WORK ORDER BEFORE ACCEPTING. YOU WILL BE HELD RESPONSIBLE FOR ALL DELIVERABLES. PLEASE DO NOT ACCEPT WORK IF YOU HAVE PREVIOUS COMMITMENTS RESULTING IN AN ETA CONFLICT. WORK ORDER MAY NOT BE RESCHEDULED. IN THE EVENT THE TECHNICIAN CANNOT MAKE IT TO SITE OR IS DELAYED, iTEK MUST BE CALLED IMMEDIATELY AND PROVIDED THE UPDATE.

PROBLEM DESCRIPTION:

PLEASE REPLACE (PC) ON (SHOES KIOSK DEPARTMENT). TECH MUST CONTACT STORE SYSTEMS-OPERATIONS 323-781-2486 PRIOR TO REPLACEMENT AND VERIFY ONCE ONLINE. THE TECH WILL CHECK SHOE KIOSK INITIALLY AND ALSO NEED TO THE OTHER TWO KIOSK AS WELL (BEDDING AND CUSTOMER SERVICE KIOSK).

IBM TICKET NUMBER:

L1DTXV

iTEK REQUEST ID NUMBER:

4905077

PROJECT NUMBER:

835

Follow attachment, Kiosk Connections and Re-image Instructions.pdf for imaging the Kiosk PC.

For any suspect DOA equipment follow the **DOA procedure** in the Confidential Section to speak with Alex or Jesse.

Equipment and Tracking

- We are shipping equipment to site. Tracking will be entered into the **Messages** or **Shipment Tracking** section under the **Payment and Approval** tab, for the technician to view by the morning of the service date. Please confirm tracking before heading to site, **DO NOT** arrive prior to the parts arrival. If the technician goes to site without verifying delivery of the unit they will not be paid for additional time onsite or for a return trip to site to complete the work.

- Technician is **REQUIRED** to remove the defective equipment and/or any unused parts from site, package with the completed equipment/part usage form, and drop them off at a local shipping location using the label provided to them within 24 hours. Get a drop off receipt or record the return tracking number for entry on the work order.

KIOSK ACCESS ISSUES

Please see the attached Kohls kiosk lock bypass instructions for sites where the store is missing the key to access the inside of the equipment. It provides an overview on how to gain access just using a philip's head screw driver.

Do to the nature of the business and end user, there are very strict guidelines that must be followed:

- COMMUNICATION is of the utmost importance with this client. If you have a question or issue, follow the ESCALATION PROCEDURE.

- Must update the web update site as outlined below.
- Have experience working with, repairing, and maintaining Windows PCs and peripherals (printers, scanners, networking)
- Have the following tools:

1. Internet Enabled Smartphone (Android, iPhone, or Windows Mobile) or Mobile Internet Access (Laptop/Tablet with wireless internet connection)
2. Basic Technician Tools
3. Multi Meter
4. Cell Phone
5. Digital Camera
6. Small Vacuum
7. Canned Air
8. USB Keyboard
9. USB Mouse

KOHL'S SUPPORT DESK HOURS KOHL'S SUPPORT IS NOW OPEN FROM 4 AMTO 4 PM PACIFIC TIME. TECH'S MAY NOT GO TO SITE OUTSIDE OF THOSE HOURS.

TECHS ARE REQUIRED TO GET THE NAME OF THE KOHLS SUPPORT REP THAT RELEASED THEM FROM SITE UPON CHECK OUT.

The tech should always call the Kohls support number provided in the **PROBLEM DESCRIPTION** first.If after 6 pm Central M-F or on the weekends call (262) 703-1515 and select options (in order) 1-3-6, to page the on call person. Kohl's will have a team member on call and the expectation is that they call back within 15 minutes.

- **Please call Kohls Support, EOC Store Systems at 323-781-2486.**

Note For calls in which we ship a full PC,please swap the entire PC. Kohls has asked our techs in the past to remove hard drives and system boards from new PC's we shipped, but tech should simply swap out the entire PC instead.

Work Order Instructions

1. When en route, update the web update site. (directions below)
2. Upon arrival, update the web update site. (directions below)
3. Technician will introduce themselves to the Manager on Duty or site contact as the iTEK technician there to work on the kiosk.
4. Technician will perform service on kiosk. (Replacement or repair on site. Depending on the model and severity of issue.)
5. When servicing kiosk tech will need to perform a basic PM on machine. Please review the attached **Kiosk PM Instructions Document** for details. This will include:
    - Cleaning the card reader
    - Vacuum out around the printer and the PC
    - Clean the screen with windex

- Tech should vacuum the inside and make sure all the boards are seated and the fan is working.

6. Tech MUST call Kohls support to check out from site at (See problem description for correct check out #). **Tech MUST record Kohls rep that they check out with.**
7. If technician is unable to get equipment COMPLETELY functional, inform **Kohl's Support** of any open issues and parts/peripherals required. Then follow the **ESCALATION PROCEDURE** below to update **iTEK**.
8. If the equipment is deemed to be **DOA**, follow the **DOA Procedure** below.
9. Technician will clean up the PC/peripheral of any dust and debris. (Using compressed air and vacuum)
10. Technician will take photos of working equipment.
11. Technician will perform a test of the unit with the manager or point of contact.
12. If the technician is asked to work on any other equipment, technician must politely inform the requester, that they will need to get approval first and the technician must follow the ESCALATION procedure below to get approval.
13. Once service is complete, completely fill out the Sign Off form attached and have the manager sign off on it.
14. Upon completion, contact iTEK Services to check out at 949-770-4835 ext 6501
15. Technician is REQUIRED to complete the form included with equipment/part outlining what parts were used and unused.
16. **Take defective equipment off site and ship it using the return label. Update the work order with the return tracking number.**
17. Technician will fax sign off sheet to 949-334-6052 or scan and e-mail to tech@itekservice.com with assignment number in the subject line within 24 hours of service completion.
18. E-mail photos to tech@itekservice.com with assignment number in the subject line within 24 hours of service completion.

- **TECH MUST USE THE ITEK GENERIC SIGN-OFF FORM ATTACHED TO THIS WORK ORDER.**
- **IF A RETURN LABEL IS MISSING PLEASE CALL ITEK TO REQUEST A NEW ONE.**
- **IF PARTS ARE LEFT ON SITE FOR ANY REASON TECH WILL BE REQUIRED TO RETURN TO PICK THEM UP FOR NO ADDITIONAL COMPENSATION.**

Payment

$65 flat rate for up to 2 hours on site

$35 each additional hour (pro-rated)

Site Aborts where technician does not go to site, but within 24 hrs $30.00.

Site Abort with technician onsite – determined by time spent at site.

Cancellation with more than 24 hrs notice Pay $0.

We will pay the cost of any parts purchased by the technician if approved before hand by the iTEK help desk.

Payment will be approved after the following:

- Sign Off sheet is faxed to 949-334-6052 or scanned and e-mailed to tech@itekservice.com (and confirmed received)

- Photos are e-mailed to tech@itekservice.com

- Once equipment is confirmed as received back to iTEK.

- Technician must not have excessive jewelry.

Deliverable Uploads

Make sure you collect and upload any required deliverables into the following deliverable categories:
[ ] Misc

Customer Standard Instructions

General Work Instructions (more detailed instructions will be in the work order description)

1. Upon accepting the work order, message the Work Order Manager with your current e-mail address that you can access from your smartphone.
2. You will receive an iTEK work order with a link to the status update page that you will be required to update during the process. (If you are doing multiple locations, each location will have an individual e-mail and link)
3. Upon arrival, use the link provided in the e-mailed work order check in.
4. Introduce yourself to the manager on duty or site contact as the technician there to perform the services listed in the work order.
5. Perform the services detailed above.
6. Take down the serial numbers of any equipment you worked with on the sign off sheet.
7. If you technical support or need additional parts to complete the requested work, contact the iTEK Project Desk at 949-770-4835 ext 6103, or press the "Support Needed" button in the link in your e-mail work order..
8. Note down any work performed in detail with resolutions on the sign off sheet.
9. Note down any open issues on the sign off sheet.
10. Have the manager on duty or site contact sign off on the sign off sheet.
11. Upon completion, use the link provided in the e-mailed work order check out.

Please keep the work order notes updated with any issues, varying model types, and with names of who you have spoken to. Take photos of equipment that is worked on to upload on the work order. In the event you are unable to make it to a site or are delayed, iTEK must be called to provide an update.

STATUS UPDATES
The Dispatch team will email you a work order to be used for status updates while onsite. The subject line is as follows: iTEK Services Work Order for "*Customer Name*" – Request ID: "*RID #*", from the email address: **no-reply-zadmin@itekservice.com**. Use the link in the email to update the work order for:

- "En Route", "On Site", "Complete", "Support Needed"

If "Support Needed", the Dispatch/Help Desk teams will be notified and will reach out to the technician **within 15 minutes.**

If you are simply checking in/out, use the link in the email that was sent from **no-reply-zadmin@itekservice.com**. You may call into the Dispatch team at **949-770-4835 ext 6103.**

Tech Support
Unless otherwise specified in the work order details or tasks to contact a separate Help Desk, reach out to the **iTEK Help Desk**. Technicians need to call iTEK Support for suspected DOA units while onsite, to verify they are DOA.

- **iTEK Tech Support**: 949-770-4835 ext 6104, 8 AM-5PM PST
- **After Hours Support**: 951-665-8751, 5PM-8AM PST

Escalations
iTEK needs to be notified: If you are going to be late, are asked to work on equipment other than what is listed above, there is no one at the store, you are denied access, leaving site, etc. Please contact the following:

1. Contact Work Order Manager listed on Work Order
2. Call iTEK Help Desk at 949-770-4835 ext 6103

Equipment: Tracking and Return
For work orders that iTEK has shipped equipment, tracking will be provided the day of service in the **Messages** or **Shipment Tracking** section of the **Approval & Payment** tab. If possible, tracking will be provided earlier. The technician is to check tracking, and confirm the equipment has arrived before heading to site. If tracking shows a delay or that the equipment has not arrived, technician is to escalate the ticket to iTEK for further guidance.

- If the technician arrives without verifying delivery of the parts, they will not be paid for additional time onsite or for a return trip to complete the work.

Parts Return
Unless otherwise specified in the work order, the technician is responsible for removing defective or unused parts from site.

Note Some of our clients will provide equipment for the work order, and the return procedure may differ from Standard iTEK Parts Return. Reach out to your work order manager if it is not noted on the work order.

If equipment is left onsite, the technician will not be reimbursed for any return trips needed to obtain the equipment for return. The parts **MUST** be returned to iTEK Services with a completed **Parts Return Form** in the box with the following information:

- Location Name and Location Number (when applicable)
- iTEK Request ID
- Status of part returned (Defective, New/Unused, Etc.)

Note: If multiple parts are being returned, indicate by line item the: RID #, customer, and part being returned.

Drop them off at a local shipping location using the provided **Return Label** within 24 hours. It is recommended to get a drop off receipt or record the return tracking number for entry on the work order.

- If the return label for the equipment is missing, contact iTEK to be sent a return label.

Customer Policies & Procedures

Payment
Payment will not be approved until:

- Sign Off sheet is uploaded on the work order or faxed to 949-334-6052 or scanned and e-mailed to tech@itekservice.com (and confirmed received)
- Photos are e-mailed to tech@itekservice.com or uploaded to the work order.
- Confirmation of receipt for the equipment & peripherals at iTEK.

Also, in the event of cancellations or site aborts:

- Site Aborts where technician does not go to site, but within 24hrs $30.00
- Site Abort with technician onsite – determined by time spent at site
- Cancellation with more than 24hrs notice will be paid $0.

We will pay the cost of any parts purchased by the technician, **IF APPROVED BEFORE HAND** by the iTEK help desk. This includes providing a copy of the receipt from the purchase.

iTEK PROFESSIONALISM REQUIRMENTS

- Perform excellent customer service. Be friendly, communicate, and assure them they're in good hands.
- Dress code is casual business attire with no logos.
- Do not share any pricing information with client.
- Do not leave personal business information or contact information with client.
- The technician needs to ensure they do not smell or reek of odors or other substances.

NON-DISCLOSURE
Do not disclose, except on a need to know basis, the names of our clients for whom you are working. Do not post job details or photos related to work on any public forum or social media venue.

30 DAY WARRANTY
Pro must agree to warranty work performed, until the end of business 30 days following day of service. If there is a call back, Pro will go back to site, making every effort to return within 24 hours. If issue is confirmed to be covered under the original scope of work, call back will not result in payment; otherwise, call back will be paid. If another Pro is required to repair a warranty related issue for any reason, the cost of the call back may be deducted from the original work order value or may be charged back to the Pro if the work order is closed.
