- Zip Ties and/or Velcro for cable management
- Box, Electrical & Masking tape
- Assorted screws & anchors

BASIC INSTALL GUIDANCE

Hardware: All hardware is to be located on desktop, stable shelving, network rack or other stable and secure surface. DO NOT leave hardware on the floor, buckets, chairs, or any non-secure location. Involve NCR Remote Deployment Support as needed

Cable Management: Cable Management must be done in a neat and professional manner. Cable routing needs to be considered carefully. Cabling should be bundled neatly and secured using zip ties or Velcro.

Drilling: Do not drill any holes unless approved by remote support

Do Not Disrupt:

- You must be extremely careful not to disturb or interrupt any business by intentionally or unintentionally powering down, breaking, or loosening cords or cables for non-NCR hardware or systems.
- Pictures taken prior to beginning work are important here.

Clean as You Go: Do not create a messy impression or cause difficulties for the client or their customers

Questions or Concerns: Notify your NCR Remote Deployment Support immediately of any concerns impacting a successful installation.

Timelines: If there are concerns about completing the requested scope of work prior to opening, please communicate with them at any time prior to this call.

Cancellation Policy:
