Shelborne, Vermont, United States info@sadiethetechladyservices.net 802 266 0866 www.linkedin.com/in/umdandsttl

Accomplished Level 2 Desktop Support Analyst with over 16 years of experience providing top-tier technical support to a diverse range of clients. Proven ability to efficiently troubleshoot complex issues, deliver exceptional customer service, and manage IT infrastructure across various industries. Skilled in incident management, asset management, break/fix repairs, ServiceNow, Active Directory, and multiple imaging technologies.

In today's fast-paced digital environment, I bring a comprehensive skill set that span years of expertise with Microsoft products, advanced networking and security solutions, and a thorough understanding of ITIL service management principles. My goal is to provide reliable, efficient, and scalable IT solutions, making me an ideal candidate for a Desktop Support or Senior Help Desk position.

My expertise includes but is not limited to:

Microsoft Products Expertise: With hands-on experience from Windows 7 through Windows 11, Office 365, Microsoft Teams, Azure, Exchange, and SharePoint, I am equipped to manage diverse IT environments. My skills extend to Active Directory, Microsoft Intune, SCCM, and PowerShell, ensuring seamless integration and management of enterprise solutions.

Software & Tools Mastery: Proficient in VMware, Citrix, ServiceNow, Zoom, Slack, and Adobe Creative Cloud, I can support and enhance productivity across various platforms. My experience with Symantec Endpoint Protection, Cisco WebEx, Wireshark, and Bomgar positions me to secure and troubleshoot complex systems effectively.

Imaging & Deployment Skills: Expertise in MDT, WDS, Ghost Imaging, PXE Boot, and Sysprep enables efficient deployment of systems. I am experienced in Acronis True Image, Clonezilla, and unattended installations, ensuring swift, scalable, and error-free deployment processes.

ITIL Service Management: Knowledgeable in the ITIL Framework, I excel in Incident Management, Service Request Management, Knowledge Management, and maintaining Service Catalogs. My commitment to SLAs and ITSM practices ensures that IT services align with business needs and deliver maximum value.

Networking & Security: Skilled in managing and securing networks using TCP/IP, DNS, DHCP, VPN, and LAN/WAN configurations. My experience includes VLANs, network troubleshooting, firewall management, and wireless networking, as well as ensuring robust endpoint security.

Hardware & Support: Adept at hardware troubleshooting, printer configuration, and laptop/desktop repair. I manage everything from BIOS/UEFI configurations to hardware upgrades, ensuring devices are secure and up to date. I also handle device management, backup & recovery, and patch management.

Customer Service & Soft Skills: A strong advocate for exceptional end-user support, I excel in remote support, technical documentation, and training & mentorship. My ability to manage time, solve problems, communicate effectively, and collaborate as part of a team has consistently led to high levels of user satisfaction and conflict resolution.

Advanced & Specialized Skills: I bring advanced solutions to complex IT challenges. My background in Mobile Device Management (MDM), Software Asset Management (SAM), and Virtual Desktop Infrastructure (VDI) highlights my ability to manage and protect IT environments efficiently.

As technology continues to evolve, I remain committed to learning and adapting, ensuring that I can deliver top-tier desktop support and IT solutions. Let's connect and explore how I can bring value to your organization through innovative IT support and management.

Ultramarine Dreams LLC | Event Promoter & Marketing Specialist

Shelborne, VT | Founder, Ultramarine Dreams LLC

I am the driving force behind Ultramarine Dreams LLC, where my passion for event promotion and marketing comes to life. With a focus on creating impactful and inclusive events, I specialize in developing strategic marketing campaigns, fostering strong partnerships, and engaging diverse communities to bring unforgettable experiences to life.

Notable Project

DJ Jonathan Peters' Rooftop Party: Spearheaded the promotion and ticket sales for DJ Jonathan Peters' exclusive rooftop event in Brooklyn, influencing the sale of over 342 tickets. Successfully reconnected Jonathan with his long-time fans while also introducing his music to a new audience, particularly within the LGBT community, demonstrating my ability to generate excitement and drive attendance.

SoundFactoryNYC Collaboration: Current project in development: an online presence/streaming event.

LGBT Community Engagement: Committed to inclusivity, I've actively engaged the LGBT community through thoughtful event planning and promotion. My efforts ensure representation and celebration, strengthening community connections and expanding the reach of each event.

At Ultramarine Dreams LLC, my mission is to bring people together through music and events that celebrate diversity, foster community, and create lasting memories. Let's connect and explore how we can create impactful experiences together!

Sadie The Tech Lady | Desktop Support Specialist and IT Project Lead Technician

Burlington, VT

March 2012 - Present

As a seasoned Desktop Support Specialist and IT Lead Technician, I bring over 16 years of experience providing high-quality technical support to a diverse range of clients, including major corporations, financial institutions, retail giants, and public sector offices. My expertise lies in desktop support, hardware deployment, and break/fix solutions, ensuring seamless IT operations and optimal productivity.

Key Projects and Accomplishments

Allstate Insurance: Successfully led the deployment of IT infrastructure across 35 office locations, enhancing network efficiency and support capabilities.

JP Morgan Chase: Contributed to global IT resource management/deployment and support projects, including work with SmartSource and Essintial, ensuring consistent technical service delivery.

Synchrony Bank: Served as an on-call technician for six months, providing immediate support and solutions to maintain business continuity.

TD Bank: Managed the deployment of desktop support across 20 retail sites during the 2020 rollout, ensuring smooth transitions and minimal disruption.

Geodis: Coordinated a critical hardware deployment project at the start of the COVID-19 pandemic, facilitating remote work capabilities.

Staples and Target: Directed the IT deployment and support for 48 Staples stores and 28 Target locations, maintaining high standards of technical service and customer satisfaction.

My proactive approach and dedication to delivering reliable IT solutions have consistently resulted in successful project completions and strong client relationships. I am committed to leveraging my technical skills and project management expertise to drive business success and operational excellence.
