PC CONNECTION, INC. CODE OF BUSINESS CONDUCT AND ETHICS
For Partners and Outsourced Service Providers
I. PURPOSE.
PC Connection, Inc. and its family of companies ("PCC") has adopted this Code of Business Conduct and Ethics (the "Code") because we expect the companies with whom we do business to conduct themselves with the highest standards of integrity and in compliance with all applicable laws, rules and regulations and to require their employees to do the same.
We are confident that following these standards of conduct will enable our business partners, outsourced service providers, sub-contractors, representatives and agents ("Partners") to transact their business with us and with our customers in a manner that makes us all proud to provide the Information Technology solutions for which the PC Connection brand has become famous.
II. APPLICATION.
This Code sets forth the required legal and ethical standards of conduct for our Partners and for their directors, officers and employees while conducting business with or on behalf of PCC.
In order to prevent wrongdoing before it occurs, we want our Partners to be proactive when it comes to business ethics and conduct. We expect each of our Partners to train its personnel appropriately, to monitor the conduct of its personnel, and to report to us instances of conduct which may adversely affect PCC's business or other interests.
We also expect our Partners to promptly remove from any workplace or assignment, any of its personnel who are found to have violated any material requirement of this Code.

III. STANDARDS OF CONDUCT.

1. **General.**

PCC expects that its Partners and all of their directors, officers, employees, subcontractors, agents and other representatives will comply with all applicable laws, rules and regulations, and will avoid all conflicts of interest when conducting business with or on behalf of PCC.
In addition, Partners are expected to adhere to any specific rules, practices or policies of PCC which PCC may elect to provide to a Partner. In the event of any inconsistency between this Code and any of those policies, this Code shall apply.
Although applicable laws, rules and regulations may vary from state to state and from situation to situation, there are some obvious examples that every one of our Partners should think about, such as:

Employment and Labor Practices: Familiarize yourself and comply with all federal, state and local laws and regulations prohibiting discrimination or harassment in the

workplace; regarding child labor, minimum wages and other labor standards; regarding workplace safety; and, regarding employee organizing activity.

Environmental Laws: Familiarize yourself and comply with all federal, state and local laws and regulations regarding the use or generation of hazardous materials in manufacturing processes and regarding the disposal of waste.

Trade: Familiarize yourself and comply with all applicable trade controls, and with all export, re-export, and import laws and regulations.

Antitrust: Familiarize yourself and comply with all applicable antitrust and fair competition laws.

Boycotts: Do not participate in international boycotts that have not been sanctioned by the United States.

Anti-Corruption: Our Partners and every director, officer, employee, subcontractor, agent or representative of any of our Partners, must not participate in bribes or kickbacks of any kind, or in any bid-rigging activity. We expect our Partners to comply with the Foreign Corrupt Practices Act, with all applicable banking and money-laundering laws, and with all laws regulating lobbying and political contributions.

Confidential Information, Trade Secrets and Intellectual Property: We expect our partners to respect the property rights of PCC and its customers, including their rights in confidential information, trade secrets and intellectual property.

Privacy: We expect our Partners to familiarize themselves and comply with all applicable laws, rules, regulations and policies regarding the protection of private information, including but not limited to health information and financial information.

The items in the list above are just examples. Our Partners are expected to comply with all laws, rules and regulations applicable to Partner and PCC whenever and wherever they do business. Partners are also expected to use good judgment and common sense in seeking to comply with all applicable laws, rules and regulations and to ask for advice when you are uncertain about them.

2. **Conflicts of Interest.**

Our Partners must refrain from engaging in any activity or from having any personal interest that presents a “conflict of interest.” A conflict of interest occurs when your personal interest interferes, or appears to interfere, with the business opportunity, with PCC, or with any of its customers.
A conflict of interest can arise whenever Partner has an interest that prevents the Partner from performing its duties and responsibilities honestly, objectively and effectively.
It is the responsibility of each Partner to disclose any transaction or relationship that reasonably could be expected to give rise to a conflict of interest to Richard Saporito in PCC’s Human Resources Department (*see* Sections IV and V, below).

3. Insider Trading.

Partners who have or who may receive material non-public information about PCC or other companies, including any of PCC’s customers, as a result of their relationship with PCC are prohibited by law and by PCC policy from trading in the securities of PCC or such other companies, as well as from communicating such information to others who might trade on the basis of that information.
If you are uncertain about the constraints on your purchase or sale of any PCC securities, or the securities of any other company that you are familiar with by virtue of your relationship with PCC, you should consult with Richard Saporito in PCC’s Human Resources Department (*see* Sections IV and V, below) before making any such purchase or sale.

4. **Confidentiality.**

Partners must maintain the confidentiality of sensitive information entrusted to them by PCC or PCC’s customers, except when disclosure is authorized by the Company or legally mandated. Unauthorized disclosure of any confidential information is prohibited. Additionally, Partners should take appropriate precautions to ensure that confidential or sensitive business information, whether it is proprietary to PCC or another company, is not communicated except to employees who have a need to know such information to perform their responsibilities for PCC or its customers.
Third parties may ask you for information concerning PCC. Partners must not discuss PCC matters with, or disseminate PCC information to, anyone except as required in the performance of their duties and after an appropriate confidentiality agreement is in place.
If a Partner has entered into a Nondisclosure Agreement (“NDA”) with PCC the specific provisions of that NDA will control.

5. **Using PC Connection’s Name and Trademarks.**

Partners shall not state that they have been approved or endorsed by PC Connection unless expressly authorized by PC Connection to do so.
Partners shall not use PCC’s name, trademarks, or branding in any press releases or other media unless authorized in advance by PCC.

6. **Honest and Ethical Conduct, and Fair Dealing.**

Partners and all of their directors, officers, employees, subcontractors, agents and other representatives, must deal honestly, ethically and fairly with PCC’s suppliers, customers and employees.
Statements regarding Partners’ and/or PCC’s products and services must not be untrue, misleading, deceptive or fraudulent. You must not take unfair advantage of anyone through manipulation, concealment, abuse of privileged information, misrepresentation of material facts or any other unfair-dealing practice.

7. Protection and Proper Use of Corporate Assets.

Theft, carelessness and waste have a direct impact on PCC and its customers. Partners must protect PCC’s assets and the assets of PCC’s customers. A good rule of thumb is to treat such property as if it were your own. This includes data and intellectual property, as well as goods and equipment.
Partners and all of their directors, officers, employees, subcontractors, agents and other representatives, shall use PCC’s and customer’s assets and services solely for legitimate business purposes and not for any personal benefit or the personal benefit of anyone else.

8. **Gifts, Gratuities and Business Entertainment.**

Bribes and kickbacks are criminal acts, strictly prohibited by law. You must not offer, give, solicit or receive any form of bribe or kickback. In addition, Partners should always bear in mind that PCC employees, officers and directors are not allowed to accept, or to permit any member of his or her immediate family to accept, any gifts, gratuities or other favors from any Partner or anyone else doing or seeking to do business with PCC, other than items of nominal value. Please do not put our employees in a position where they would be violating this policy. You will be jeopardizing the employee's job as well as your relationship with PCC.
For the purposes of this Code, a gift of nominal value has a retail value of no more than $50.00.
Some business entertainment is acceptable, but please use common sense and moderation. Employees, officers and directors of PCC are allowed to accept business entertainment paid for by anyone doing business with PCC **only** if the entertainment is infrequent, modest and intended to serve legitimate business goals.

9. **Accuracy of Books, Records and Requests for Payment**

Accurate information is essential to PCC's ability to meet its contractual obligations as well as legal and regulatory obligations.
By submitting any invoices, time records or other requests for payment to PCC, our Partners warrant that the information in such document is accurate.
Our Partners, and each of their directors, officers, employees, subcontractors, agents and other representatives, must honestly and accurately report all business transactions. Your books, records and accounts must be maintained in accordance with all applicable regulations and standards, and accurately reflect the true nature of the transactions they record.
PCC will investigate any questionable requests for payment and, in an appropriate case, will report such matters to appropriate authorities.

IV. REPORTING MISCONDUCT

Every Partner has the responsibility to ask questions, seek guidance, express concerns regarding compliance with this Code and to report suspected violations of this Code or of any particular law, rule, or policy. Any Partner who knows or believes that any employee or representative of PCC has engaged or is engaging in work-related conduct that violates applicable law, rules, policy or this Code should promptly report such information to Richard Saporito, Sr. Vice President of PCC's Human Resources Department via email and to the PCC Legal Department by email, at the email addresses in Section V, below. Similarly, any Partner who knows or believes that any of its own employees or representatives, or any employee or representative of a PCC customer, has engaged or is engaging in work-related conduct that violates applicable law, rules, policy or this Code should report such information to Mr. Saporito and to the PCC Legal Department.
Partners are expected to inform their employees that they may report such conduct openly or anonymously atwww.MySafeWorkplace.com without fear of retaliation. PCC will not retaliate against any person who reports such conduct in good faith, whether or not such information is ultimately proven to be correct, or who cooperates in any investigation or inquiry regarding such conduct.
Partners also should also inform their employees that they may report such conduct on a confidential or anonymous basis, by contacting the Company's Legal Department by fax, mail or e-mail. PCC has established a toll-free telephone number where you may leave a recorded message about any violation or suspected violation of applicable law, rules, policy or this Code. While we prefer that you identify yourself when reporting so that we may follow up with you as necessary for additional information, you may leave messages anonymously. The telephone number is 1-800-461-9330.

V. HIPAA Compliance and Customer Requirements

1. **HIPAA Compliance.** Some of PCC's Customers to whom Services are provided hereunder may be a "covered entity" or a "business associate" as those terms are defined in the Health Insurance Portability and Accountability Act of 1996, as amended ("HIPAA"). In the event PCC notifies Provider that Services are to be provided to a covered entity or to a business associate, then in such event Customer, PCC and Provider shall determine whether or not performance of the Services will or may require Provider to have access to Protected Health Information as that term is defined in HIPAA. In such event, Provider may be required to enter into a Business Associate Agreement provided by PCC's Customer. If Customer requires such training, Partner's Service Engineers, employees, and agents, that will have access to PII, must have completed a recognized HIPPA compliance training program.
2. **Customer Requirements**. In the event that Customer imposes any requirements upon PCC with respect to Personal Information or Protected Health Information which are more stringent than the requirements imposed by this Agreement, the Provider agrees to be bound by the more stringent Customer requirements.
3. **Customer Equipment.**

"Provider and other personnel or agents may not remove Customer equipment, components or peripherals, including flash drives and portable memory as well as items intended for disposal by Customer from Customer's site without the prior written consent of Customer and PCC."
